Dear Montana Silversmiths,

We would like to thank you for using your time and resources to produce 3D printed facemasks for our Montana communities.

As our state is experiencing unprecedented and uncertain times due to COVID-19, Montana businesses like yours continue to step up to help Montanans in need. Your immense contribution helps ensure that our healthcare professionals and essential workers have the necessary personal protective equipment to work safely on the front lines.

We are humbled by your selfless decision and hard work to transition your business to contribute to this effort. Our hospitals, nursing homes, essential workers and vulnerable individuals in communities all over our state are lucky to have you in this fight to protect public health and the state we call home. Montana is one big small town with long roads, and in these challenging times, your support for our communities reflects the true Montana value of neighbors helping neighbors.

Thank you again for your efforts and the sacrifices you have made to keep Montana safe. We are all in this together.

Sincerely,
